

WHY HOST WITH US?

- We guarantee **99.9% UPTIME**.
- We offer both Linux and Microsoft Windows shared web hosting plans.
- We monitor our servers 24/7, using the latest technologies available, and apply strict security policies to make sure that your information is always available to you while maintaining safety and confidentiality.
- Our data centers (SAS 70 Type II certified) are equipped with multiple backbone Internet lines, backup power diesel generators, backup tape libraries, 24/7 surveillance ensuring speed, safety, and redundancy.
- We stay on top of the latest technologies, and provide support for applications such as: **PHP 5, ASP.NET, Python, Perl, MySQL 5, MS SQL, MS Access, Ruby on Rails, and JSP**.
- We can provide you with assistance in transferring your site to us when needed.
- All of our plans include a **FREE** Site Builder with **500+** professional templates. We also offer custom design services.
